WHO WE ARE

IXAR in Africa

IXAR Africa has operated on the continent since 2019, working for oil and gas operators, EPC contractors, power producers and process industry clients across eight countries. Crews are based in Kampala and Dar es Salaam and mobilise to site with their own equipment, sources and radiation protection cover.

The regional business is part of **Industrial X-Ray and Allied Radiographers (I) Pvt. Ltd.**, founded in 1969 and today a leader in non-destructive testing in India and internationally. The group employs over 1,000 technicians, holds ISO 9001 certification, operates a fleet of mobile radiography units, and runs a training institute accredited in collaboration with the Bhabha Atomic Research Centre in Mumbai. African teams draw on group equipment, technical specialists and written practices whenever a project calls for it.

Group presence: India · Uganda · Tanzania · Nigeria · Netherlands · UAE · Oman · Saudi Arabia

COMPLIANCE

Licences and certification

Radiation Safety Authorisation

Licensed to own, store, transport and operate sealed radioactive sources by the Uganda Atomic Energy Council and the Tanzania Atomic Energy Commission. Sources in use include Iridium-192, Selenium-75 and Cobalt-60, alongside X-ray crawlers and close proximity radiography systems.

Authorised by: UAEC Uganda · TAEC Tanzania · BARC

Certified Personnel

Technicians qualified and certified to Level II and Level III in accordance with ASNT SNT-TC-1A. Level III personnel carry 7 to 25 years of field experience, Level II personnel 5 to 10 years. Qualified Radiation Protection Officers are assigned to all source handling work.

Certified to: ASNT SNT-TC-1A · Level II · Level III · RPO

Quality Management

ISO 9001 certified since 2003, with written practices and procedures aligned to ASTM, ASME, API, BS, DIN and NACE, or to a client specified standard where one is imposed.

Certified to: ISO 9001 · Bureau Veritas · ASME · API · ASTM

Industry Standing

Member of the American Society for Non-Destructive Testing, the American Welding Society, ASTM, NACE, ISNT and NANSO. Regular member of the International Pipeline and Offshore Contractors Association.

Member of: IPLOCA · ASNT · AWS · NACE · ISNT · NANSO

CAPABILITY

Services

NO	SERVICE	WORKED TO
01	Radiography Testing (RT / CR / DR)	ASME Sec V · ISO 17636 · UAEC / TAEC Licensed
02	Digital and Computed Radiography	ASTM E2033 · ISO 17636-2

NO	SERVICE	WORKED TO
03	Ultrasonic Testing (UT)	ASME Sec V · ISO 16810 · ASNT Level II / III
04	Advanced Ultrasonics (PAUT / TOFD / AUT)	ASME Sec V Art 4 · ISO 13588 · ISO 10863
05	Magnetic Particle and Liquid Penetrant Testing	ASTM E709 · ASTM E165 · ISO 9934
06	Eddy Current and Pulsed Eddy Current	ASTM E243 · ISO 15549
07	Pipeline Inspection	API 1104 · ISO 13847
08	Pigging and Intelligent Pigging	API 1163 · NACE SP0102
09	Tank and Tube Inspection (MFL)	API 653 · API 570 · ASTM E570
10	Underwater and Marine NDT	CSWIP 3.1U · IMCA D 018
11	Destructive Testing and Laboratory Services	ASTM E8 · ASTM A370 · ISO 6892
12	Radiation Safety and BARC NDT Training	ASNT SNT-TC-1A · BARC Accredited
13	Robotic and Remote Inspection	ASME Sec V · API 653
14	Heat Treatment and Stress Relieving	ASME Sec VIII · AWS D1.1
15	Visual Inspection and Helium Leak Testing	ASME Sec V Art 9 and 10 · ISO 20485
16	NDT Equipment Supply and Maintenance	ISO 9001 · Manufacturer Calibration

SECTORS

Industries served

Oil and Gas

Pipelines, storage tanks, refineries and process plant across upstream, midstream and downstream operations.

Power Generation and Geothermal

Boilers, turbines, heat exchangers and steam pipework in thermal, hydro, geothermal and renewable facilities.

Mining

Structural steelwork, processing plant, pressure vessels and material handling equipment.

Cement

Kilns, ducting, structural supports and plant maintained within tight shutdown windows.

Breweries, Beverage and Food

Tanks, vessels, process pipework and hygienic welded systems.

Sugar

Boilers, evaporators, mill structures and pressure equipment inspected during off-crop maintenance.

Marine and Ports

Jetties, cranes, hulls, mooring structures and submerged assets.

Manufacturing & Engineering

Fabrication quality control, weld inspection, structural steel and pressure equipment certification.

FOOTPRINT

Where we operate

Crews mobilise from the regional offices in Kampala and Dar es Salaam. Projects have been delivered in:

COUNTRY	PRESENCE	NOTES
Uganda	Registered office, Kampala	Tilenga and Kingfisher oil fields, Hoima and Buliisa
Tanzania	Office, Dar es Salaam	Radiography and plant inspection, Dar es Salaam and Illovo
Kenya	Served from Kampala	Enquiries handled by the regional office
Rwanda	Served from Kampala	Within regional mobilisation range
Mozambique	Served from the region	Within regional mobilisation range
Ethiopia	Served from the region	Within regional mobilisation range
Sudan	Served from the region	Within regional mobilisation range
Malawi	Served from the region	Within regional mobilisation range

TRACK RECORD

Clients in Africa

Sinopec · CPECC · CCJV / CNOOC Uganda · PRAJ Projects · Larsen & Toubro · Afrishell-Jeveeka · Ntake Bakery · Illovo Distillers

A project-by-project record is published separately as **Completed Projects, Africa**, available from ixar.africa.
