Notes on this record

- Work order values are held commercially confidential and are not published. They are available on request under a non-disclosure agreement.
- Entries 4 and 9 are separate work orders for the same client at the same location and are listed individually rather than combined.
- Entry 10 is a group project delivered in India, included because the scope and the client relationship carry into the African work.
- Client names are published with the permission of the clients concerned. Projects under confidentiality are not listed.
- Status is current as at September 2026.
